

# ALFALFA

# 4030

4030 is a forage yield leader with an outstanding disease and nematode resistance package. It exhibits high forage quality which will produce dairy quality forage for the demanding dairy operations. 4030 expresses high resistance to the six major diseases that attack alfalfa.

## Performance in Trials

## Key Characteristics

- Higher forage yield potential
- Improved digestibility for better animal performance
- Fast recovery with excellent persistence
- Outstanding winter survival
- Resistant to Aphanomyces Root Rot (Race 2)

| Agronomic Traits              |        |
|-------------------------------|--------|
| Trait                         | Rating |
| Bacterial Wilt                | HR     |
| Fusarium Wilt                 | HR     |
| Phytophthora Root Rot         | HR     |
| Verticillium Wilt             | HR     |
| Anthracnose Race 1            | HR     |
| Aphanomyces Root Rot (Race 1) | HR     |
| Aphanomyces Root Rot (Race 2) | R      |
| Northern Root-Knot Nematode   | HR     |
| Southern Root-Knot Nematode   | MR     |
| Stem Nematode                 | R      |
| Pea Aphid                     | R      |

| Winter Survival and Adaptation |           |
|--------------------------------|-----------|
| Fall Dormancy                  | 4.0       |
| Winter Survival                | 1.6       |
| Stand Persistence              | Excellent |
| DRI                            | 30        |
