

CATAPULT

Timothy

Explosive Spring Vigor & Summer Regrowth

Catapult is an aggressive growing, early-to-mid maturity timothy. A semi-erect growth habit, medium to dark green color, and taller plant height are characteristic of this variety. Bred for spring vigor and summer regrowth, Catapult comes out of the ground fast with rapid recovery after cutting. Its superior stand persistence lasts all-season and continues year after year. Ideal companion for legumes, other forage grasses, or as a pure stand.

Key Features

- Strong Seedling Vigor
- Stand Persistence
- Tall Plant Height
